

Side Effects Tracker

Have You Ever Experienced These Side Effects From Your CML Medication?

Side effects from chronic myeloid leukemia (CML) treatment vary from person to person. This is a printable chart that can help you track the side effects you may experience during treatment. It does not include all possible side effects. Fill out this chart to the best of your ability, and discuss it with your doctor. Report all side effects to your doctor as soon as possible. Some side effects may require medical attention. Talk to your doctor before taking any products to help relieve your side effects.

Side effect	Date(s)	Rate the severity of the side effect on a scale of 1 to 10 (1=mild; 10=most severe)	Doctor's instructions for relief of side effects (such as name of medication), and date
